Introductions

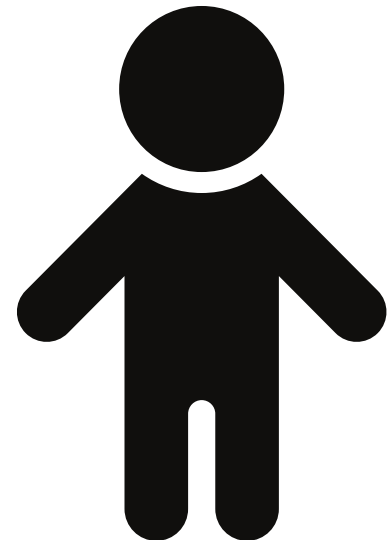

Amy Reece- Advocates for Children CASA

Sara Embrey- Douglas County Collaborative Management Program

Collaborative Management Program

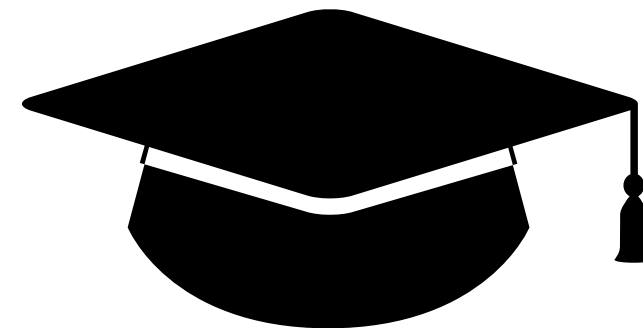

Created out of legislation in 2004, the statewide Collaborative Management Program was born out of a need for a collaborative service delivery for children, youth and families who are or are at risk of becoming multi-system involved. It specifically aims to "reduce duplication and eliminate fragmentation of services; increase the quality, appropriateness, and effectiveness of services provided; encourage cost-sharing among service providers; and ultimately lead to better outcomes and cost-reduction for the services provided to children and families in the state of Colorado".

Collaborative Management Program Cont.

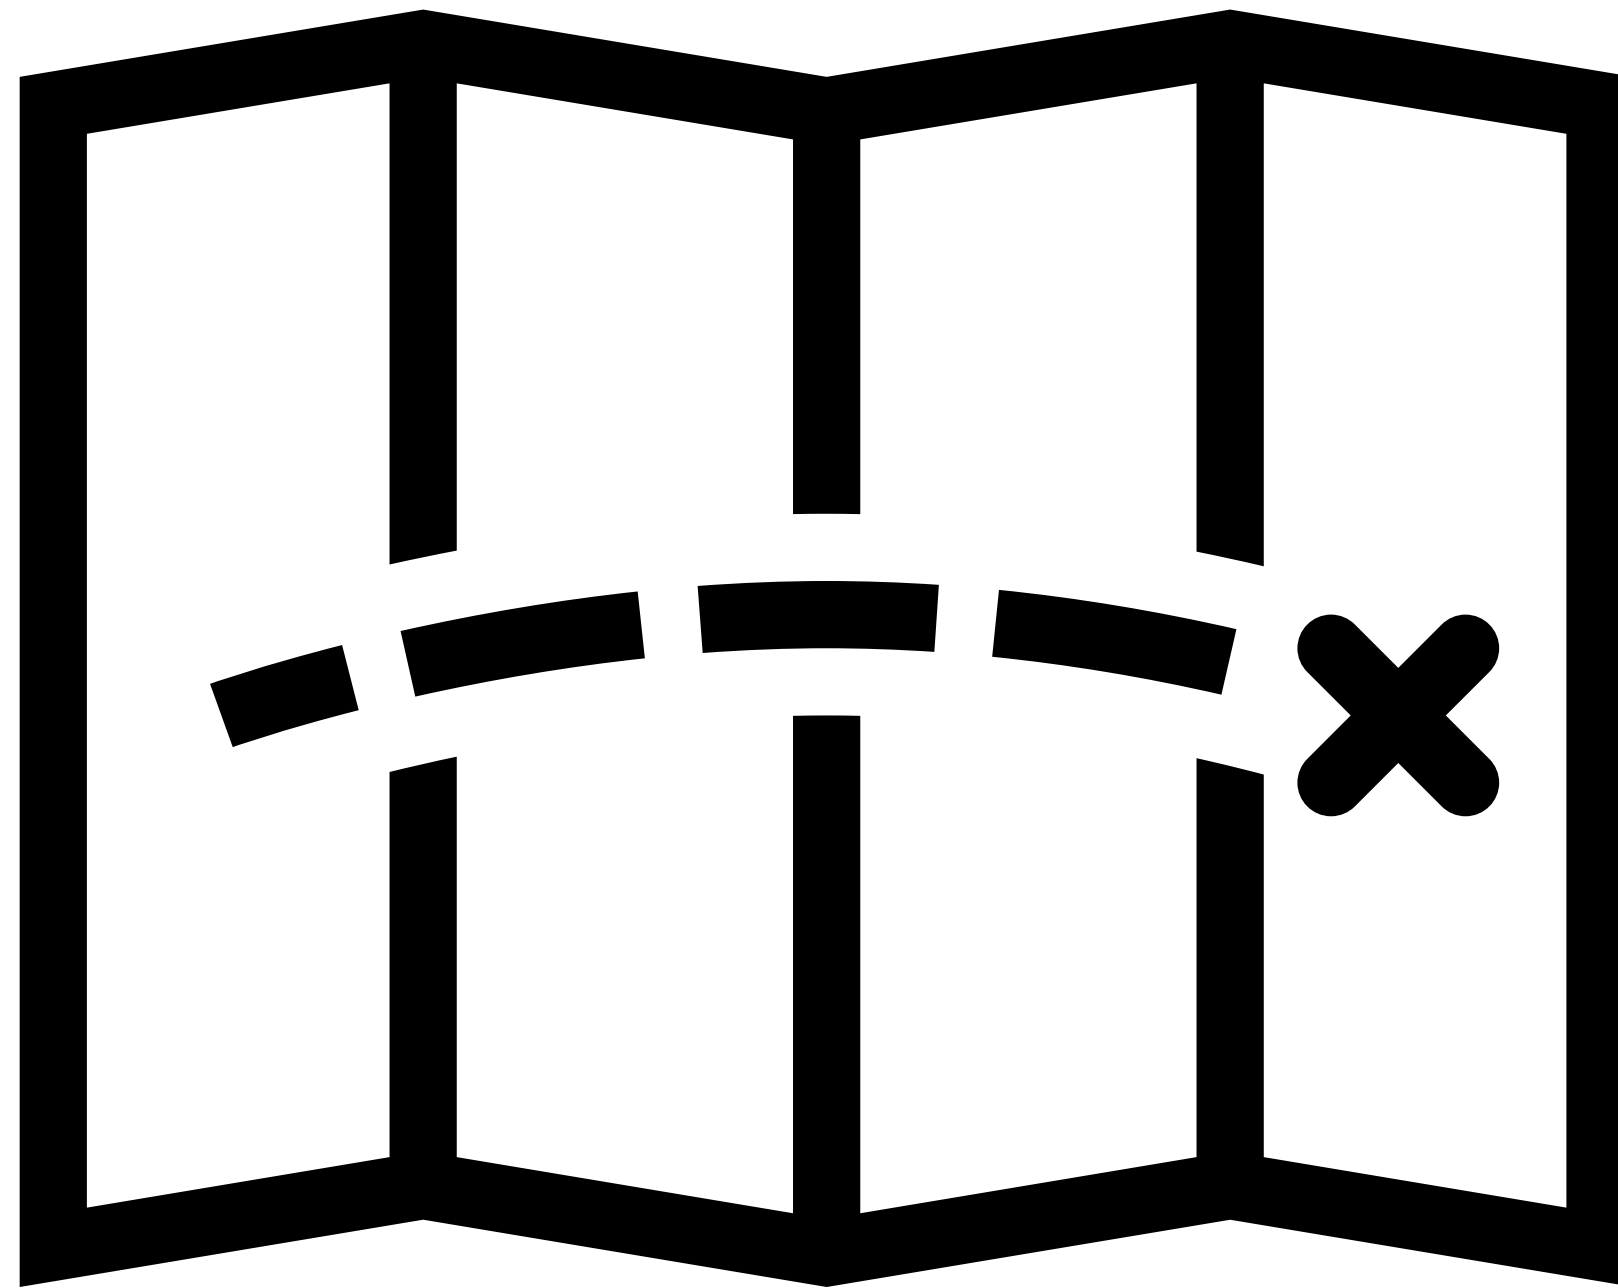

- PARTNERSHIP

The CMP requires specific partners to be at the table in order for a community to be able to implement a CMP in their community. There are 10 mandatory partners but no limit as to how many partners can be included as part of your CMP.

- DOULGAS COUNTY COLLABORATIVE MANAGEMENT PROGRAM (DCCMP)

In Douglas County we have 20 partners that formally participate in our CMP with multiple other partners who participate in an advisory capacity.
