

Welcome to the CIRCLE grant data Dashboard!

The Community Innovation and Resilience for Care and Learning Equity (CIRCLE) Grant aim was to provide grant funding to early care and education providers and other community, education, or governmental partners to pursue innovative solutions to early childhood challenges worsened by the pandemic in Colorado. The goals of the 226 funded projects are to make child care more affordable; fill gaps in infant and toddler care; strengthen providers' financial stability; boost workforce preparation; and contribute to the health and learning of all children, including those with disabilities and developmental delays and dual-language learners.

The interactive dashboard provides data on the 226 CIRCLE grantees. Data about grantees and projects can be explored and broken out by different categories such as grantee organization type, counties served, project topic area, and primary populations served. The data in this dashboard is primarily sourced from a final survey of CIRCLE grantees. Other sources of data include CIRCLE grantee applications and a baseline survey of CIRCLE grantees.

How to Use the Dashboard

This dashboard includes four views to explore:

1. [About the CIRCLE grantees](#) - This view displays where each CIRCLE grantee organization is located.
2. [About the CIRCLE projects](#) - This view displays the counties that were reached by CIRCLE projects, as well as funding and other information related to project implementation
3. [CIRCLE project outcomes](#) - This view displays information on the systemic challenges that CIRCLE projects addressed, the degree to which project goals were met, primary populations served, and other information related to grantee experience.
4. [Innovation and Equity profiles](#) - This view provides information on 18 CIRCLE projects that highlight innovation and equity.

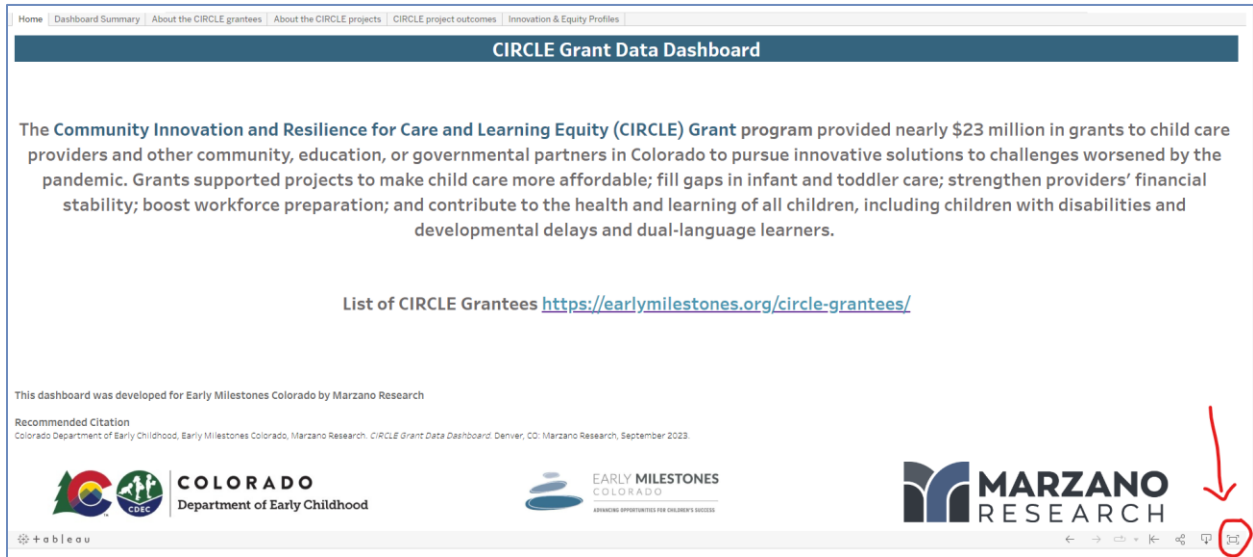

To begin, select the view you are interested in at the top.

Then use the dropdown filters at the top to view the data you are most interested in. For an example on how to use the dropdowns see the [Dashboard Summary](#) view in the dashboard.

Please note that your filters will carry over from view to view. For example, if you filter for only 'Higher Education' organizations on one view and move to another, that view will also be filtered for only higher education organizations.

The dashboard is not optimized for mobile devices and works best using full screen mode. The icon for full screen mode is located in the bottom right corner of the dashboard.

About The Data

Early Milestones Colorado (Early Milestones) was subcontracted by the Colorado Department of Early Childhood (CDEC) as the intermediary agency designated to implement the CIRCLE grant initiative. As the intermediary, Early Milestones supported grantees as they implemented innovative solutions to systemic early childhood challenges. Early Milestones contracted Marzano Research to evaluate the implementation of the initiative and individual grantee projects as well as develop the data dashboard. The data in this dashboard is primarily sourced from a final survey of all 226 CIRCLE grantees. Other sources of data include CIRCLE grantee applications and a baseline survey of CIRCLE grantees. Data was collected during the CIRCLE grant period from July 1, 2022 through June 30, 2023.

Please click [here](#) for more information on the CIRCLE grant and to access the impact brief.
