

Do you care for a child who is a family member, friend,
or neighbor in rural Colorado?

Join the Rural Care Network!

Early Milestones Colorado is launching a community network for rural Family, Friend, and Neighbor (FFN) caregivers this October. The network will provide monthly community building, assistance, and training to caregivers. [Sign up here!](#)

1

Community

Caring for young children can feel isolating. This community will build connections and a system of support for FFN caregivers in rural Colorado.

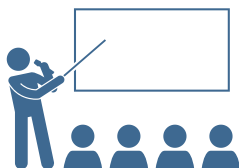

2

Technical Assistance

Have you faced challenges caring for one or more children? Coaches can provide options and support as you as a caregiver.

3

Training

Are there areas where you would like more support or information? Participants will design the network and request trainings that will help them the most.

4

Funding

Participants can receive up to \$950 in materials grants as well as assistance in claiming the \$1,200 Care Worker Tax Credit.
